

UTHAYASANMUGAM P

.NET Developer | C# | ASP.NET | MVC | .NET Core | SQL Server | Web API | Angular 8

+91 6369259822 | uthaytamil@gmail.com | Chennai, India

Professional Summary

Results-driven and detail-oriented **Mid-Level .NET Developer** with **3 years of experience** in designing, developing, and maintaining enterprise-level **web applications** using **Microsoft technologies**. Proficient in **C#, ASP.NET, MVC, .NET Core, Web API, and SQL Server**. Experienced in developing **RESTful APIs**, performing **database development**, and integrating **frontend technologies** such as **jQuery** and **Angular 8**. Strong understanding of **Agile methodologies**, the **Software Development Life Cycle (SDLC)**, and **technical documentation**. Committed to delivering high-quality software solutions within dynamic development teams.

Key Skills

- **Languages & Frameworks:** C#.NET, ASP.NET, ASP.NET MVC, .NET Core, Web API
 - **Frontend Technologies:** HTML5, CSS3, JavaScript, jQuery, Angular 8, Bootstrap
 - **Database Technologies:** SQL Server, Stored Procedures, Triggers, Views, Joins, Query Optimization
 - **ORM & Tools:** Entity Framework, LINQ, ADO.NET, Visual Studio 2022
 - **API Integration:** RESTful Web Services, JSON, Postman
 - **Cloud & DevOps:** Basic knowledge of AWS, Deployment, Debugging, Troubleshooting
 - **Testing & Version Control:** Unit Testing, Integration Testing, Git
 - **Other:** SDLC, Agile, Scrum, Bug Fixing, Technical Documentation, UI Design, Backend Integration
-

Education

Master of Computer Applications (MCA)
RVS College of Arts and Science, Coimbatore — 2021–2023 | Score – 80 %

Bachelor of Science (B.Sc.) in Computer Science
JJ College of Arts and Science, Pudukkottai — 2018–2021 | Score – 73 %

Professional Experience :

Software Engineer

Lean impeccable technologies Pvt. Ltd., Chennai - May 2025 – Present

Junior Software Engineer

Truckrr Information Services Pvt. Ltd., Chennai - Feb 2023 – April 2025

Project's Worked:

Project 1: Warehouse Management System

An end-to-end warehouse solution designed to manage inventory, stock movement, order processing, and shipment tracking. Provides real-time inventory visibility and improves operational efficiency and accuracy.

Roles & Responsibilities:

- Maintained and enhanced the web application to ensure optimal performance, reliability, and seamless functionality using ASP.NET MVC, .NET Core Web API, C# and SQL Server.
- Provided live customer support and implemented third-party API integrations to improve system capabilities and user experience.

Project 2: Fleet Management System

An end-to-end fleet tracking solution designed for logistics companies to manage vehicle operations, driver behaviour, fuel consumption, and maintenance schedules.

Roles & Responsibilities:

- Developed and enhanced web modules using ASP.NET MVC, .NET Core, and C# for fleet tracking and resource management.
- Built and consumed RESTful Web APIs for communication between systems and third-party applications.
- Designed and optimized SQL Server databases, including complex stored procedures, functions, and joins.
- Worked with Entity Framework and LINQ for efficient data handling.
- Created responsive UI elements using HTML, CSS, Bootstrap, and jQuery; integrated Angular 8 for dynamic user interactions.
- Collaborated in Agile/Scrum teams, participated in daily stand-ups, sprint planning, and retrospective meetings.
- Conducted integration testing, resolved bugs, and supported production deployment activities.
- Prepared and maintained technical documentation such as system design docs, API contracts, and database schemas.

Technologies Used:

C#, ASP.NET MVC, .NET Core, Web API, SQL Server, Entity Framework, Angular 8, jQuery, AWS, Visual Studio 2022

Project 3: ABSA Bank (Client Project) | Banking Sector

Project: Core Banking Platform

An enterprise-grade banking application for managing customer accounts, transactions, loans, and compliance.

Responsibilities:

- Designed and developed secure, scalable modules using ASP.NET MVC, .NET Core, and C#.
- Created and consumed REST APIs to support internal banking workflows and mobile interfaces.
- Designed complex SQL Server schemas, and implemented stored procedures, triggers, and data migration scripts for performance and reliability.
- Ensured application security with ASP.NET Identity and implemented role-based access control.
- Participated in Agile ceremonies (scrum, sprint planning, retrospectives) and used Git for version control.
- Collaborated with business analysts and QA teams to validate business logic and release stable features.
- Developed financial dashboards and backend logic for report generation and compliance audits.
- Provided knowledge transfer sessions and code reviews for junior team members.

Technologies: ASP.NET MVC, .NET Core, SQL Server, Web API, Entity Framework, LINQ, Visual Studio, Git, Postman
